| Assignments  |       |

## Materials:

- a sturdy 2" binder
- pencil/pen/calculator
- pencil crayons
- lined paper, graph paper, dividers

## Please note the policies on the following:

### 1) Missed Tests/Quizzes/Assignments/Labs

An excused absence does not excuse you from any work. It is your responsibility to complete the work that was missed and try to be prepared for class when you return.

### 2) In the lab

If you break any equipment you will be charged for the replacement of that equipment. You are expected to exercise careful laboratory technique while performing any experiment.

It is mandatory to have safety glasses, protective gloves and a lab apron/lab coat when handling chemicals.

Students are encouraged to interact and network with each other, orally explain and elaborate concepts being learned, and be accountable for their learning.

GOOD LUCK AND ENJOY YOUR CLASSES!
